

Veon Consulting launches Value partnership for Indian SMEs

SMEs in India constitute more than 80% of total number of industrial enterprises and form the backbone of industrial development. However, Indian SMEs are facing a tough competition from their global counterparts due to:

- Sub-optimal scale of operation
- Technological obsolescence.
- Low end integration of processes
- Unaffordable solutions

We provide extraordinary support to our value clients.

Our rigorous evaluation process allows us to recommend mature enterprise IT solutions that are comparable, and in cases superior to more expensive commercial alternatives.

Benefits:

- IT consulting on regular basis.
- Installation of one vanilla solution in each quarter.
- Training to the staff on the regular basis.
- Aligning IT to resolve your business problems in a more effective manner
