

SAP Consulting

At Veon Consulting, we help you realize the most out of what SAP has to offer in your industry vertical.

Our consultants have good domain knowledge and thorough understanding of Best Business practices and have worked with world's biggest names.

- Agri Business
- Automotive
- Consumer Packaged Goods
- Retail

We also help you realize cost savings by designing web based real time integrated solutions by leveraging SAP's web services. These help you save cost and have better ROI for your SAP Implementation.

In our support engagements, we not only help organizations in their day to day issue resolution within the service level agreement, but also offer the following value added services

Root Cause Analysis ‐ To find out the actual reason for frequent incidents and resolve them and prevent future occurrence.

Continuous Improvement ‐ As a part of continuous improvement process we help in identifying one areaProject management has been core strength to our company. Our project managers have handled some of the most demanding and challenging SAP implementation ever. Our implementation methodology aims at minimizing slippages and timely go ‐ live of your SAP initiative.
